

Pub Trivia Zoom Style

Step 1—Set up a Zoom Meeting or Google Hangout. Send an invitation to all your friends. I would encourage them to sign in early if they have never done it before in case they need to put an app on their phone or computer. If they set it up on a laptop,ipad or computer with a camera it will make things more fun and easier to play.

Step 2— Once online let everyone introduce themselves and their teams. Team names are a great way to talk trash.

How to Play -

- ◆ There are 4 Rounds
- ◆ 5 Questions in Each Round. Question 1-4 in each round you can bid 1 to 4 points per question but you can't use the point values more than one time a round. The last question is a four part questions worth a total of 4 points.
- ◆ I would tally the scores at the end of each round.
- ◆ When you start the game you will put everyone on mute so that when they discuss the answers they don't share their answers with the rest of the players. I played songs during the time they were guessing answers it made it feel more like pub trivia. I just used my iphone.
- ◆ Get everyone to either get some notebook paper or a dry erase board. When they guess an answer and you have given enough time then all at once ask them to show their questions to the camera. Remember to write the point value they want for that question and it would help to put their team number on it. It will help you with your bookkeeping.

Example of an answer form:

Team 7
The Corvette
2 points
